Notice of Allowability	10/670,872	WEAVER ET AL.
	Examiner	Art Unit
	Dai A. Phuong	2617
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. This communication is responsive to <u>07/24/2006</u> .		
2. The allowed claim(s) is/are <u>1-3, 19-23, 30 and 32-37</u> .		
3.		
Attachment(s) 1. Notice of References Cited (PTO-892) 2. Notice of Draftperson's Patent Drawing Review (PTO-948) 3. Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 4. DETAILED ACTION

1. This is in response to the Applicant's amendments and arguments filed on 07/24/2006 in which claims 4-18, 24-29 and 31 have been canceled. Claims 1-3, 19-23, 30 and 32-37 are currently pending.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowed:

Claims 1-3, 19-23, 30 and 32-37 are allowed.

Regarding claim 1, the prior art record fails to anticipated or render obvious a method comprising: determining a current location of a mobile station; making a comparison of the current location to a designated location; based on the comparison, computing a next time to determine an updated location of the mobile station; sending content associated with the designated location to the mobile station once the mobile station is located within a range of the designated location, wherein making the comparison comprises estimating a distance between the current location and the designated location, wherein computing the next time to determine the updated location of the mobile station comprises estimating a time interval to travel the distance between the current location and the designated location, wherein estimating the time interval to travel the distance between the current location and the designated location comprises using a predefined travel time that corresponds to traveling the distance between the current location and the designated location, and wherein computing the next time to determine the updated location of the mobile station comprises calculating a percentage of the predefined travel time, wherein the next time to determine the updated

Art Unit: 2617

location of the mobile is at least about 50% of the predefined travel time, all limitations in

combination as defined by applicant.

Regarding claim 30, the prior art record fails to anticipated or render obvious a system

comprising: a content serving element that stores content associated with a designated location

and sends the content to a mobile station when the mobile station is located within a range of the

designated location; and a location determining element arranged to:

(a) determine when the mobile station is located within the range; and

(b) responsively inform the content serving element when the mobile station is located

within the range, wherein the location determining element determines when the mobile

station is located within the range by performing a process comprising:

(i) determining a current location of the mobile station, and

(ii) if the current location is not within the range, computing a next time to determine

an updated location of the mobile station by estimating a travel time required for the mobile

station to travel from the current location to the designated location using at least about 50%

of the predefined travel time, and at the next time repeating from step (i), all limitations in

combination as defined by applicant.

3. Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

ee. Such submission should be clearly labeled "Comments on Statement of Reasons for

Allowance."
